AISA Connect™

WhatsApp Business Automation — Enterprise™ Service Agreement

This Agreement sets out the complete terms on which UWO ("Service Provider") will design, build, and deliver the AISA Connect™ Enterprise™ WhatsApp automation solution for the Client.

This Service Agreement ("Agreement") is made and entered into on _____ (Date), by and between:

Service Provider: UWO ("the Company", "we", "us", "our"), engaged in the business of providing AI-powered business communication and automation solutions under the brand AISA Connect™.

Client: _____ ("the Client", "you", "your"), a business/individual availing the AISA Connect™ WhatsApp automation service, with registered/contact address at _____.

The Service Provider and the Client shall collectively be referred to as the "Parties" and individually as a "Party".

Plan Selected: Enterprise™

Setup Fee: ₹1,00,000+ (one-time, as per Statement of Work) | **Monthly Fee:** ₹50,000 per month (+ applicable taxes)

1. Scope of Services

UWO shall provide the Client a WhatsApp Business Automation solution under the AISA Connect™ platform ("the Service"), delivered under the Enterprise™ plan, consisting of a configured automation workflow connected to the Client's WhatsApp Business account, along with the specific features listed below.

Plan	Setup Fee (One-time)	Monthly Fee
Enterprise™	₹1,00,000+	₹50,000 / month

All WhatsApp Automation Features (included from the base plan):

- Advanced campaign filters
- Conversation analytics
- Additional chat automation
- Commerce workflows
- Order management panel
- WhatsApp Pay integration
- 24-hour support window
- API rate limit: 300 messages/minute
- Campaign summary reports
- Quick replies & broadcast messaging

Growth Engine™ Features (also included):

- Unlimited external app integrations
- Session message APIs
- Incoming message automation
- AI agent stats
- AI + trait-based routing
- Detailed campaign reports
- Labels & broadcasts
- CRM integrations

Additional Enterprise™ Features:

- API rate limit up to 60,000 messages/minute
- Dedicated customer success manager
- Custom user-level reporting
- High-speed messaging infrastructure
- MarTech platform integrations
- Clevertap / WebEngage integration
- Advanced CRM orchestration
- Enterprise-grade AI workflows

Any feature, integration, workflow, channel, or capability not expressly listed above is outside the scope of this Agreement and shall be treated as a chargeable add-on, subject to a separate written quotation and mutual written agreement between the Parties. The exact scope, SLA, security requirements, and final commercial terms of the Enterprise™ plan shall be governed by a separate written Statement of Work / Proposal mutually signed by both Parties, and this Agreement shall apply in conjunction with such Statement of Work.

2. Documents & Access Required from Client

Before commencement of work, the Client shall provide UWO with the following documents, information, and access, without which setup and configuration of the Service cannot begin:

- Meta Business Portfolio (Meta Business Manager) access for WhatsApp Business API setup
- WhatsApp Business number to be connected — the number can be migrated to the WhatsApp Business API without losing the existing number or requiring the Client to give up their current WhatsApp account
- Company logo (high-resolution, for branding on WhatsApp and the dashboard)
- Company documentation (business registration / incorporation proof, as applicable)
- GST certificate / GST number
- Product/service documents (catalogue, pricing, descriptions, or similar business details)
- Workflow document (details of the automation flow, processes, and responses the Client wants configured)

UWO shall not be responsible for any delay in delivery or configuration caused by delay or failure of the Client in providing the above documents and access in a timely manner.

3. Nature of the Service — Dashboard-Based Access

The Client acknowledges and agrees that once the WhatsApp number is connected to the AISA Connect™ platform via the WhatsApp Business API, all conversations, automation, and messaging shall be managed and shall open only through the AISA Connect™ dashboard, and not through the regular WhatsApp mobile/desktop application. The standard WhatsApp application may not reflect, or may only partially reflect, conversations and message activity once the number is connected to the API-based automation platform. This is a standard and expected characteristic of WhatsApp Business API-based automation and does not constitute a defect or deficiency in the Service.

4. Project Delivery

UWO shall configure and deliver the Service based on the requirements, content, credentials, and information furnished by the Client. Delivery timelines, where communicated, are estimates only and are contingent on the timely and complete cooperation of the Client, including but not limited to provision of WhatsApp Business API access, content, business information, and required approvals. Delays caused by the Client shall correspondingly extend the delivery timeline, and UWO shall bear no liability for such delays.

5. Fees and Payment Terms

Total Setup Fee: ₹1,00,000 (Rupees One Lakh) or above, as finalised in the mutually signed Statement of Work/Proposal, one-time, payable in advance.

Monthly Subscription Fee: ₹50,000 (Rupees Fifty Thousand only) per month, or as revised in the Statement of Work/Proposal, payable in advance for each billing cycle.

Applicable Taxes: GST and other applicable government taxes shall be charged extra, as per the prevailing rate at the time of invoicing.

- The Setup Fee (₹1,00,000 or above, as per the signed Statement of Work) is payable in advance and in full prior to commencement of work, unless otherwise agreed in writing.
- The Monthly Fee of ₹50,000 (or as revised in the Statement of Work) is payable in advance for each billing cycle and shall continue for as long as the Service remains active.
- All fees are exclusive of applicable taxes (including GST), which shall be borne additionally by the Client unless stated otherwise.
- Non-payment or delayed payment of the Monthly Fee may result in suspension of the Service without further notice, without affecting UWO's right to recover outstanding dues.
- Any add-on, additional workflow, integration, or customisation requested outside the selected Plan shall be charged separately as per UWO's prevailing rates.

6. No-Refund Policy

All payments made to UWO under this Agreement, including the Setup Fee and Monthly Fee, are strictly non-refundable under any circumstances, including but not limited to change of mind, discontinuation of business, dissatisfaction with results, delay attributable to the Client, or non-usage of the Service by the Client after delivery. By making payment, the Client acknowledges and accepts this no-refund policy as a material term of this Agreement.

7. Post-Delivery Support

Upon successful delivery of the Service, UWO shall provide free technical support for a period of one (1) month only, limited strictly to resolution of technical errors, bugs, or malfunctions directly attributable to UWO's configuration or development work.

- This support does not include new feature requests, additional workflows, content changes, retraining of AI/automation logic due to Client business changes, or issues arising from third-party platforms (WhatsApp, Meta, payment gateways, CRMs, etc.).
- After expiry of the one (1) month support period, any further support, maintenance, bug-fixing, or changes shall be chargeable and subject to a separate support/maintenance agreement or add-on purchase.
- UWO reserves the right to determine, at its sole discretion, whether a reported issue qualifies as a technical error covered under this support period.

8. Client-Provided Information and Content

The entire project — including WhatsApp automation flows, business knowledge, responses, pricing, policies, product/service details, and all configurations — shall be built strictly on the basis of the information, content, and instructions provided by the Client.

- The Client is solely responsible for the accuracy, completeness, legality, and correctness of all information, data, documents, and content shared with UWO for building the Service.
- UWO shall not be liable for any error, inaccuracy, business loss, customer complaint, regulatory issue, or dispute arising from incorrect, incomplete, outdated, or misleading information provided by the Client.
- Any rework required due to incorrect information or content originally supplied by the Client shall be treated as a change request and may be chargeable at UWO's discretion.
- The Client warrants that it has full right, ownership, and authorisation to share all content, data, and credentials provided to UWO, and shall indemnify UWO against any third-party claim arising from such content.

9. Client Responsibilities

- Provide accurate business information, content, and access/credentials required for setup (including WhatsApp Business API/Meta Business Manager access) in a timely manner.
- Designate a point of contact for approvals, clarifications, and testing during the project.
- Review and approve workflows/configurations before go-live; any issues not flagged during testing shall not be treated as a delivery defect.
- Comply with WhatsApp/Meta's platform policies; any suspension or restriction imposed by WhatsApp/Meta due to Client's business practices, messaging content, or policy violations is outside UWO's control and liability.

10. Limitation of Liability

UWO's total liability under this Agreement, if any, arising out of any claim, negligence, breach, or otherwise, shall not in any event exceed the amount of the Setup Fee actually paid by the Client. UWO shall not be liable for any indirect, incidental, consequential, or special damages, including loss of business, revenue, data, or goodwill, arising from use of, or inability to use, the Service, including any

downtime, disruption, or restriction caused by WhatsApp/Meta or any other third-party platform.

11. Intellectual Property

The AISA Connect™ platform, its underlying architecture, core codebase, workflow engine, templates, and all related technology remain the exclusive intellectual property of UWO. The Client is granted a limited, non-exclusive, non-transferable right to use the configured Service for its own business operations for as long as this Agreement remains active. The Client shall not copy, reverse-engineer, resell, sub-license, or replicate the underlying platform or technology.

12. Confidentiality

Each Party agrees to keep confidential all non-public business, technical, and commercial information disclosed by the other Party during the course of this engagement, and not to disclose the same to any third party without prior written consent, except as required by law.

13. Term and Termination

- This Agreement commences on the date of payment of the Setup Fee and continues on a monthly basis until terminated by either Party.
- The Client may discontinue the Monthly Service by providing written notice; however, no refund shall be issued for the Setup Fee or for any Monthly Fee already paid.
- UWO may suspend or terminate the Service immediately in case of non-payment, misuse of the platform, violation of WhatsApp/Meta policies, or breach of this Agreement by the Client.

14. Force Majeure

UWO shall not be held responsible for any delay, disruption, or failure in delivering the Service caused by circumstances beyond its reasonable control, including but not limited to internet/server outages, changes in WhatsApp/Meta policies or APIs, government action, or any other event of force majeure.

15. Amendments

No addition, deletion, or modification to this Agreement shall be valid unless made in writing and signed by authorised representatives of both Parties. Verbal assurances, if any, shall not be binding on UWO.

16. Governing Law and Jurisdiction

This Agreement shall be governed by and construed in accordance with the laws of India. Any dispute arising out of or in connection with this Agreement shall be subject to the exclusive jurisdiction of the courts at _____.

17. Entire Agreement

This Agreement, along with the selected Plan details and any written annexures, constitutes the entire understanding between the Parties with respect to the subject matter herein and supersedes all prior discussions, proposals, or representations, whether oral or written.
